

SECTION I

COST DATA – Custom Rates for power-operated farm machines

Custom work provides a favorable alternative to machinery ownership. Each custom rate reported includes charges made for use of the machine, necessary mechanical power and fuel, and time for the operator. Baler twine or wire is included in the custom-baling rate. Cost of spray materials is not included in any of the spraying rates.

Type of Service	Machinery	State Price/unit Dollars	Local price/unit Dollars
Plowing	D-4	16.00	_____
	D-5	20.00	_____
	D-6	22.00	_____
Rake	D-4	16.00	_____
	D-5	20.00	_____
	D-6	22.00	_____
